The Virginia-Maryland College of Veterinary Medicine is recruiting dogs with IBD or GI lymphoma.

Eligibility
- Dogs must weigh more than 10 lbs. and be over 6 months of age
- Have chronic small or mixed bowel diarrhea of 3 or more weeks
- Recent CBC and chemistry profile
- GI biopsy confirming diagnosis of IBD or GI Lymphoma

WHAT IS BEING STUDIED?
This study seeks to determine if fecal lactoferrin measurements can be used in dogs to non-invasively distinguish between GI lymphoma and inflammatory bowel disease and to monitor disease progression.

WHAT IS REQUIRED?
Research blood and fecal samples collected at time of GI biopsy for confirmed IBD and lymphoma cases and fecal samples 30 and 60 days later.

Enrolled dogs receive a $635 payment/credit after GI biopsy results, forms, and research blood and 30, 60 day fecal samples are submitted.
