GI Problems?
The Virginia-Maryland College of Veterinary Medicine is recruiting cats with IBD or GI lymphoma

Eligibility
• Cats must be over 6 months of age
• Have chronic upper GI disease of 3 or more weeks
• GI biopsy diagnosis of lymphoma or IBD, CBC and blood chemistry results

WHAT IS BEING STUDIED?
This study seeks to determine if a blood Immunosignature profile can be used in cats to non-invasively distinguish between GI lymphoma and inflammatory bowel disease.

WHAT IS REQUIRED?
Research blood and fecal samples must be collected at the time of GI biopsy. Cats with a diagnosis of IBD and GI lymphoma are eligible. A $280 payment/credit will be issued after copies of GI biopsy report, other forms, and research blood and fecal samples are submitted.
