JUNE 2022

Katherine Fogelberg named associate dean for professional programs at Virginia-Maryland College of Veterinary Medicine

Following a national search, veterinarian, researcher, and educator Katherine Fogelberg has been named associate dean for professional programs at the college, effective July 15. This role oversees the Doctor of Veterinary Medicine program and is responsible for the design, planning, operation, and assessment of that program.

Around the College

Mohamed Seleem named director of the Center for One Health Research

Mohamed Seleem (Ph.D. '06), the Tyler J. and Frances F. Young Chair in Bacteriology, has been named director of the Center for One Health Research. The Center for One Health Research is a collaboration between the veterinary college and the Edward Via College of Osteopathic Medicine, both of which have interest in cooperative research and scholarship related to infectious diseases.

Veterinary college welcomes new clinical assistant professor in Equine Field Services

Amy Santonastaso (M.S. '16) recently joined the college as a clinical assistant professor in the Equine Field Services.

Biomedical and veterinary sciences Ph.D. candidate receives National Institutes of Health grant

Jatia Mills, a biomedical and veterinary sciences Ph.D. candidate has been awarded a highly selective diversity supplement grant through the National Institutes of Health (NIH). These grants support those from underrepresented racial and ethnic groups, people with disabilities, and those from disadvantaged backgrounds as part of the NIH's goal to increase diversity.

R. Scott Pleasant honored with emeritus status

R. Scott Pleasant, professor of equine surgery and podiatry at the college, has been conferred the title of professor emeritus by the Virginia Tech Board of Visitors. A member of the Virginia Tech faculty since 1991, Pleasant made significant contributions to fostering the veterinarian-farrier relationship by improving the education of veterinary students, interns, residents, and farriers on the principles and techniques of equine podiatry.

New lab kick-starts clinical research collaboration at veterinary college

Collaboration is key to solving complex problems, and the new Collaborative Multidisciplinary Research Laboratory (CMRL) at the college is helping a wide array of veterinary clinical researchers work together to tackle challenges. More than a dozen faculty, graduate students, and residents from across the college are currently utilizing this new space.

David Panciera honored with emeritus status

David Panciera, professor of internal medicine at the college, has been conferred the title of professor emeritus by the Virginia Tech Board of Visitors. A member of the Virginia Tech faculty since 1998, Panciera's work in canine and feline thyroid function brought international visibility to Virginia Tech.
