

# Canine Assisted Mobility Devices

We all want the best quality of life for our canine companions. This includes being able to enjoy activities together that require mobility. If your companion has recently been diagnosed with a medical condition or disease process that will inhibit their mobility, your veterinarian may recommend an assisted mobility device. Upon a veterinarian recommendation, the following information can help you decide what will work best for you and your pet's unique situation.

## **Dog Wheelchair Loaner Carts**

The Veterinary Teaching Hospital offer Walkin' Wheels dog wheelchairs for your pet if one can be properly fit. Our selection is limited and we may not have one in stock that can be adjusted for your companion. We will also be happy to measure your pet for a cart. Please make an appointment through the Rehabilitation Service to have either of these done by calling 540-231-4621.

**Our Policy:** Once we find a cart suitable for your pet, you must pay the full cost of the cart and sign an agreement that the cart will be returned (in good condition) within 30 days. Upon returning the cart within this time period we will refund 75% of the original cost.

**Costs:** Mini-Small \$324 | Medium \$514 | Large \$541
